

OFFICE Kersten Geers David Van Severen

CURRICULUM VITAE

OFFICE Kersten Geers David Van Severen

OFFICE is an architectural practice founded by Kersten Geers (1975) and David Van Severen (1978). Since its establishment in 2002 in Brussels, OFFICE has been committed to the idea of architecture as a cultural undertaking aimed at improving the human environment. To that end, we see the increasingly pressing topics of sustainability, responsible sourcing, or future use, as a catalyst for shaping our urban and social realm, and architectural form as part of the solution. OFFICE is a collaborative practice, bringing together our colleagues, developers and experts from various disciplines, in order to assure quality of every project. The projects are at once pragmatic and innovative, while deeply rooted in diverse architectural histories. In its very essence, our work creates a framework within which life unfolds in all its complexity.

OFFICE projects differ in scale and type, ranging from furniture to urban design. Recent projects include Swiss Radio and Television building in Lausanne, Switzerland, as well as Aerospacelab Megafactory in Charleroi, Belgium and VRT Headquarters in Brussels, Belgium, both currently under construction. This practice is combined with academic research and teaching, thus creating unexpected parallels between the two aspects of OFFICE's production. Kersten Geers is currently a Full Professor at the Academy of Architecture USI in Mendrisio, and both he and David Van Severen have previously served as Design Critics in Architecture at Harvard GSD. Additionally, they have taught at various institutions, including the Berlage Institute, TU Delft, Ghent University, Columbia University GSAPP, Yale School of Architecture, and EPF Lausanne. This academic output is documented under the monicker Office Without Office.

Diverse backgrounds and knowledge of our international team contribute to the unique voice of OFFICE. Since 2018, OFFICE is a partnership led by Kersten Geers, David Van Severen and Jan Lenaerts, together with associates Justine Rossillion, Alexander Smedts, Jacopo Lugli, Jelena Pancevac and Inga Karen Traustadottir.
